Forecast for Thursday 09 Jun 2022

Weather: A good amount of dry, bright weather through the day, but interspersed with some cloudy periods with patchy light rain or showers. These not lasting too long though, with the cloudiest period during the evening where there could be more in the way of patchy light rain and drizzle.

Chance of cloud-free hill tops above 800m: 80%, but occasionally down to 50% around midday and in the evening.

Low cloud and visibility: Low cloud occasionally down to 500 m early morning, mainly south. Bands of showers or rain may lower cloud down to 700 m at times, but otherwise mostly above summits. Good visibility occasionally moderate in rain, and very poor within low cloud.
